Dear Update:

As an employee of a music store, I was appalled to read your article on "Buying It Right" in a recent *Update* (May). Most music stores will be able to come extremely close to the price of most legitimate mail order houses (as with computers, there are quite often hidden mail order costs such as freight).

Electronic keyboards are often very confusing, especially to the computer illiterate, and most people need the help that a music store will be glad to provide. I am personally very happy to find the correct product for the particular customer and will gladly order whatever product the he/she requires.

Also, it is quite probable that Mr. Gernhardt has had some sort of problem with his keyboard by this time, and has had the extremely irritating task of having to mail his instrument into the "nothing" of factory service.

If he had purchased the instrument at the store, he would be entitled to return it to them for exchange right there in his very own hometown.

In the music industry, unlike the computer industry, there are no factory authorized service centers that will honor the warranty of a product purchased elsewhere. That means it must be mailed to the distributor, who then must repair the instrument even though they usually know less about the instrument in question than the local music store.

Gille,
Fresno, CA

You make some very good points, Gille — the inconvenience of mailing your instrument in for repairs is one of the trade-offs you make when you go through a mail-order house to get a good price.
The purpose of Paul Gernhardt's article was not to disparage the efforts of most music store employees, or to deny that there is something to be said for personalized service. He was merely trying to point out that Q-Link is a wonderful source of advice and opinions for people shopping for computer-related merchandise. You can talk to people who have shopped around and lived with the equipment they bought — and save yourself some legwork in the process.

Dear Update:

Some time ago I remember hearing that Q-Link was developing a kind of "People Connection" with animation. You were supposed to be able to create a "body" for yourself, walk through buildings and scenery, and have adventures in a kind of "fantasy world." Whatever became of it? Will it be available any time soon?

RobinBobin
Rockville, MD

Robin, we are thrilled to announce that the question you — and a lot of other people — have been asking is answered on p. 12!

Inside Customer Relations: A New Q-Link Monthly Column Addressing Customer Concerns

by Lori-Ellen Anderson

Hello from the friendly folks at Q-Link's Customer Relations Department! We're the people who are here to answer questions for *you*, the member, at the other end of your E-mail, message boards, or calls to our toll-free assistance number. We've had a number of new developments in Customer Relations recently that mean faster responsiveness for members with questions and concerns.

TDD Lines Help Us Reach Out to the Hearing-Impaired

Thanks to the efforts of Scott Montgomery, one of our Customer Relations representatives, we are the proud owners of a new Telephone Device for the Deaf (TDD) machine. The TDD line allows us to communicate over the phone with hearing-impaired Q-Link members via the written word. Once connected, they can leave a communication for us by E-mail.

The toll-free TDD number, for a recording that allows you to leave your own message, is 1-800-759-DEAF, and it's available 24 hours a day!

Replies will be made during regular CRD hours, Noon to 1:00 a.m. EDT.

Get Fast Answers From the Customer Service Message Boards

When you need help with a question concerning Q-Link Terms of Service or anything else dealing with your account, the best place to turn is the Customer Service message boards, located in most areas of the online Customer Service Center.

This is a Basic area, so you are not charged anything extra for browsing around for advice on access numbers, billing information, or game rules! If you have a question that you can't find the answer to online, leave a message on the board in the area that relates to your problem.

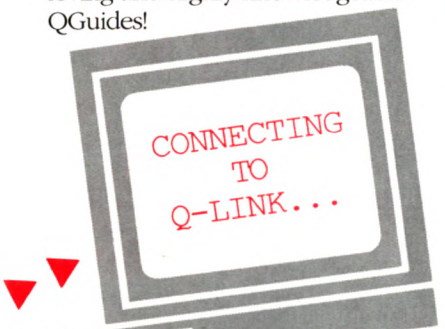
We are proud of the latest statistics regarding these boards: the turnaround time (from when the question is posted until it is answered by us) is within 24 hours 98% of the time! We understand the need to respond quickly to your questions and that is certainly our goal. We also welcome your direct E-mail to JennyC, who will continue to respond within 24 hours.

Hurray for QGuides!

We are also justifiably proud of our online QGuides! We have 37 such guides, ranging in age from here to there, spread out all over the U.S. to provide you assistance while online, and to ensure that your visit to Q-Link is enjoyed in a warm and inviting atmosphere.

You'll find them all over People Connection (and always in the People Connection lobbies from 6 p.m. to 7 a.m.), ready and willing to provide information and to welcome you to Q (they have the fastest menu paths ever)!

If you'd like to be a QGuide, and you're over 18 years of age, please send E-mail to screen name Applicants. Who knows? Someday you may be able to join our elite team of fantastically friendly, fun-loving and highly knowledgeable QGuides!



Fast Fix for Connecting Delays

Finally, a connecting tip that some of you may not be aware of. Occasionally, when you try to connect to Q-Link, you might get stuck at the screen that says "Connecting to Q-Link....Please wait for Q-Link Connection." But then you see the word "Connecting" and a dash or two — and nothing happens.

If you have a Version 3 or Version 4 disk, you can probably take care of the delay by pressing your F5 key; this will prompt your modem to dial the access number again, rather than making you power down and re-boot the whole system! :)

Until next month — we'll see you online!

(Customer Service Center)

New Access Numbers and Recent Changes

A new Tymnet (/) or Telenet (+) number in your area may mean reduced phone charges, so be sure to check the list of access phone numbers regularly online, In the Customer Service Center's Members' Online Guide.

Here are recent changes and new access numbers. Changes are indicated by the listing of an old access number; new city numbers/nodes do not list old numbers.

Win Free Plus Hours At *Live* Learning Center Contests

Whether you like to test your knowledge, compete with others, or just enter contests to have fun, you're bound to enjoy the challenging live quizzes in the Learning Center — attending one is almost like being on a game show!

QTutors from the Learning Center's Tutoring Center lead students in rapid-fire face-offs, peppering contestants with questions in a variety of academic subjects.

For instance, in the weekly Spelling Bee (Tuesdays at 8 p.m.) the incorrect spelling of a word is provided. The first participant to provide the correct spelling of the word wins a point, and the point leader at the end of the contest wins free Plus time!

There's also a Current Events Quiz every Sunday night at 9 p.m., where students are challenged on their knowledge of the week's newsmaking people and events.

And there are three other live Tutoring Center contests to choose from: the Science Challenge takes place Sundays at 8 p.m., the Vocabulary Face-Off is Thursdays at 8 p.m., and History Trivia is Thursdays at 10 p.m. The questions are generally high school level, but all are welcome to play — you don't even need to be a student!

The Learning Center's live contests take place in classrooms in the Tutoring Center — check under the Tutoring Center's department headings to find out where each contest takes place. Then put on your thinking cap and join the quest to win *free* Plus hours!

Welcome to Club Caribe SM

Q-Link's Online Resort Combines Interaction, Animation and Fun!

Imagine an island resort where you can get away from your everyday cares, a vacation spot where you can swim, sightsee, take in a show and chat with other tourists. Well, now you don't have to hop a plane to take a dream vacation — Q-Link invites you to Club Caribe, our new online island resort!

From the moment you enter Club Caribe, you cease to exist only as words on your Commodore screen. Caribe is a joystick-controlled alternative world where anything goes — it has its own environment, laws of nature, and currency. You become a guest of the island, and you can custom tailor a new physical "self" before kicking back to enjoy a break from the cares of your day.

Relax on Club Caribe's luxurious beaches or drink at one of its friendly pubs. Play a game in the Arcade or marry your Caribe sweetheart in the island Chapel. Spend an evening at the Comedy Club, see the exotic fish in the Aquarium, explore the dark Sea Caves, or buy vacation goodies in Caribe's Shopping District.

While you're taking advantage of the island's many activities, you can chat with other Q-Link vacationers as well. Every visitor to Club Caribe customizes a tourist "body", so you'll soon know their faces, not just their screen names. The adventures you and your fellow tourists can have are limited only by your imaginations!

All this month, you can get your Club Caribe Kit, with everything you need to enjoy your island getaway, FREE — just order it online by July 31. Turn the page to find out more about our new island resort — and plan to come visit us soon. We'll see you on the beach!

Caribe Technology Developed with Lucasfilm Games

Club Caribe, Q-Link's new online vacation resort, combines all the benefits and features of the online chat environment with the graphics, animation and interactivity of today's most popular game software. Caribe allows visitors to "see" the place they inhabit as well as communicate with others using the usual text method.

The advanced technology used to create Caribe stretches the capabilities of the C64 and was developed as part of a development agreement between Quantum Computer Services and Lucasfilm Games, the game software division of the entertainment and film production company that gave us *Star Wars*™ (see page 11).

Using Lucasfilm's Habitat™ technology, Q-Link's Club Caribe uniquely blends the gaming and online worlds, and provides color graphics and person-to-person interaction in a world simulation that's available for the first time anywhere!

Experience the Thrill of Caribe's "Alternative World"

Club Caribe offers more than just a place to relax — it's a separate reality where you can decide how you look, change your form, and move freely around the island. If you get tired of walking use a "teleporter" to quickly hop from one end of Club Caribe to the other. Teleports look like phone booths, but they transmit your body, not your voice!

In Club Caribe, each area or room is called a "region," and you move around the island and interact with others using your joystick to "Go," "Get", "Put" and "Do" many different things.

In fact, there's so much to do in Club Caribe that visitors use their function keys (and "Control" keys) along with the joystick to achieve maximum mobility and control.

You can roam Caribe in two different forms — as a "Guest", you are fully visible and may walk, talk (your comments appear in a cartoon "balloon" above your head!), jump, wave, exercise and pick up objects and move them in and out of your "pocket."

Or, you can roam the island as a "Spectator." Your "body" disappears and you are seen only as an "eye" in the corner of the screen!

When you visit Club Caribe, leave your money at home with your troubles. Guests in Club Caribe use tokens to take care of their monetary needs. You begin your trip with a given number of tokens, and can remove them from your pocket or the automatic teller machines to make your purchases.

It's not as strange as it all sounds — some features of Club Caribe will be familiar to all Q-Linkers. You can still send other guests E-Mail (which will appear in Caribe guests' "pockets" as a piece of paper), or contact someone else in Caribe using "ESP" (an online message). And you chat in Caribe just like you do in People Connection, typing your messages in using the keyboard.

People to See, Many Places to Be

The first time you visit Caribe, you will create your vacation "look," deciding such things as your height, sex, hair, and clothing colors. Once you've got your body created, you're ready to explore, and you'll quickly discover Club Caribe is as "happening" a place as any real tourist resort!

Get back to nature as you roam the island's forests, sea caves, and beaches (be careful where you go, or you might end up on the nude beach by mistake!). Play games in the arcade, or hang out in one of the island's bars or hot tubs. There are regularly scheduled Club Caribe activities too, so you can attend a performance at Costello's Comedy Club or be part of a trivia game run by a member of the island staff (called CCGs, or Club Caribe Guides). You can even win tokens at these events and use them to go on a spending spree!

And if you get tired of the way you look, give yourself a makeover! At "La Vous New," you can shop for a new outfit, buy a new head, or change your sex. If you buy a new head, be sure to stick your old head in your pocket quickly — island guests sometimes get mischievous and take things from each other!

Whether you enjoy chatting in People Connection, entering contests, or playing games, you're bound to find something that appeals to you in Club Caribe. Complete instructions on island geography and protocol are included in your Club Caribe kit, which you can order FREE online during our special introductory period.

Isn't it time you pampered yourself with a little vacation time? At Club Caribe, you can get away from it all — without ever leaving your home! Join us there soon!

How to Get Started

To use Club Caribe, you must have a Commodore 64, 64C,128, or 128D. You need a 1541/1571 disk drive (or one that's 100% compatible), a monitor, a joystick, Q-Link Version 3 or 4 software, and the Club Caribe disk available for order in Just For Fun's Gaming Connection and The Mall. The software may not work properly if there are other peripherals attached to your computer. The Club Caribe kit contains complete instructions for adding Club Caribe to your Q-Link disk. You enter Caribe through People Connection — just choose the "Play or Observe an Online Game" option, "Start a Game," and the "Club Caribe" option that will top the next menu when you've added it to your disk. Insert your Club Caribe disk, and you're ready to roll!

Grace Under Pressure: Hone Your Diplomatic Skills at World Crisis Forum July 10

Have you ever said, "I could do better!" when you see negotiations between opposing countries break down, leaving the world in turmoil? If you think *you* can do better, you now have the opportunity to put your skills to the test.

On Monday, July 10 at 10 p.m., the Crossroads Cafe and QCrossfire will sponsor a "World Crisis Forum" in Just For Fun's Crossroads Cafe. A crisis scenario involving the Middle East will be presented: you may join either the U.S. or U.S.S.R. advisory teams and attempt to resolve the problem in this two hour forum.

For detailed information, check the Marquee area in the Crossroad's Cafe.

VIQ of the Month: Iris (Dee Maxwell)

You know her as Iris of Iris's Bar and Grill, the place where Q-Link's VIQs get together on Tuesday and Thursday nights. Offline, she's Dee Maxwell of Carrierre, Mississippi, a registered nurse and entrepreneur who travels the South negotiating with hospitals for insurance companies. And now, she's also our VIQ of the Month!

Iris has been part of the Q-Link community for two years, and you might find her in the Casino or Phantasy Guild when she's not tending bar in her grill. A self-described "computer addict," she opened Iris's Bar and Grill because she wanted to provide VIQs with a fun meeting spot of their very own.

From 9 p.m. to 11 p.m. every Tuesday and Thursday, that's just what you'll see in the VIQ Lounge, located in Just For Fun's QSociety. Dee describes it as "a free-for-all — we get together to discuss just about any topic, and anything goes. It's really a nice group of people." Be forewarned, one of the VIQs' favorite games is to take bets on the sex of newcomers to the Lounge — male or female? No fair cheating!

The VIQ Lounge is open to any member who accumulates 50,000 unspent Q-Pons, either from using Q-Link regularly or winning in online contests and giveaways. VIQ status entitles you to a VIQ polo shirt, a special Customer Relations representative dedicated to handling your membership concerns, and the private VIQ Club. In the club, you'll find sneak peeks of new Q-Link services, VIQ message boards — and Iris' Bar and Grill. The next time you drop in to the VIQ Club, say howdy to Dee Maxwell — she's Q-Link's VIQ of the Month!
